DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James T. Eller on September 13, 2004.

The application has been amended as follows:

In line 10 of claim 8, delete the phrase, "the first end of the floating gate,".

Allowable Subject Matter

2. Claims 1 – 11 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach, alone or in combination, a method of making a non-volatile memory device, including "forming a floating gate...the second end having a tapered portion", "forming a control gate...the second portion of the floating gate not covered by the insulator" and "causing a tapered protrusion to form on the second portion of the floating gate under the tunneling insulator". Nor does the prior art teach a method of forming a non-volatile memory device including "forming a second sidewall spacer abutting the second end of the control gate and the second end of the cap insulator; forming a third sidewall spacer abutting the second end of the floating gate..." and the tunneling insulator "...being between the second and third sidewall spacers".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas W Owens whose telephone number is 571-272-1662. The examiner can normally be reached on Monday-Friday.
